

Green cities for climate and water resilience, sustainable economic growth, healthy citizens and environments

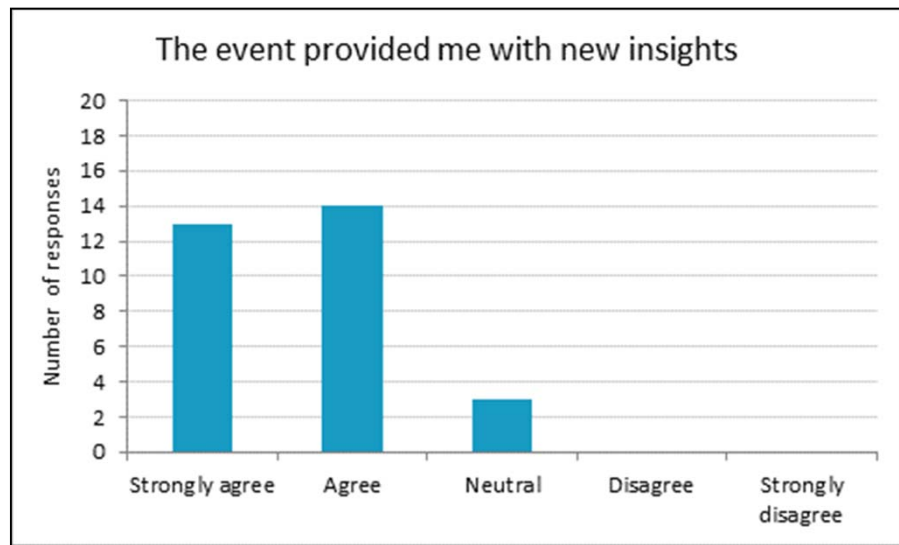

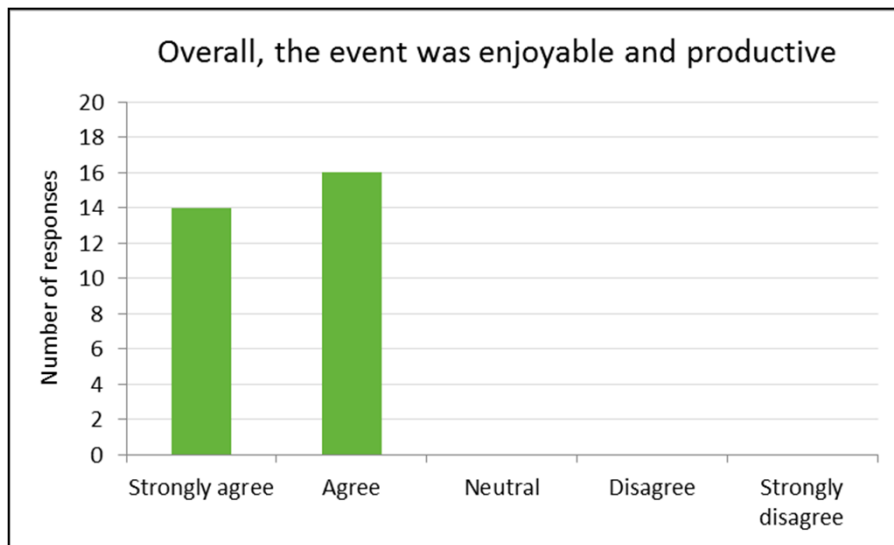

Innovative financing for creating green cities conference 2019

Participant feedback

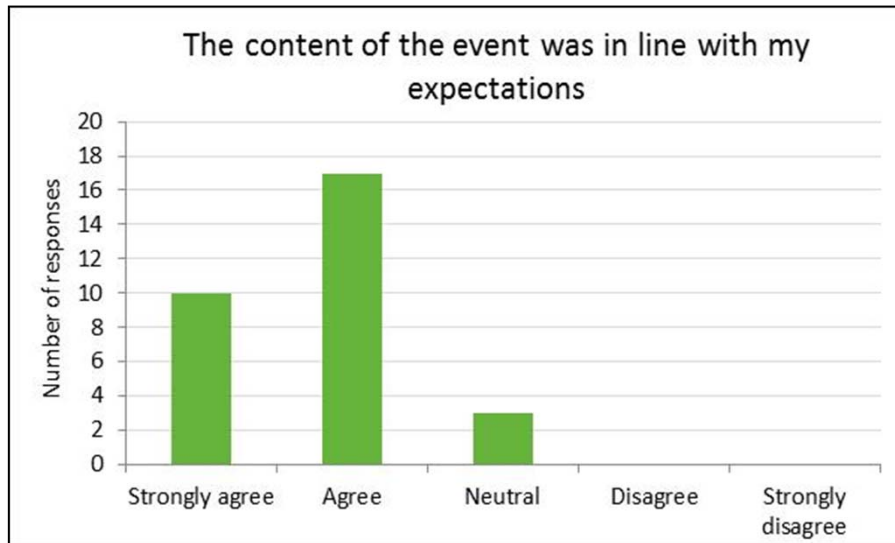

Participants' feedback

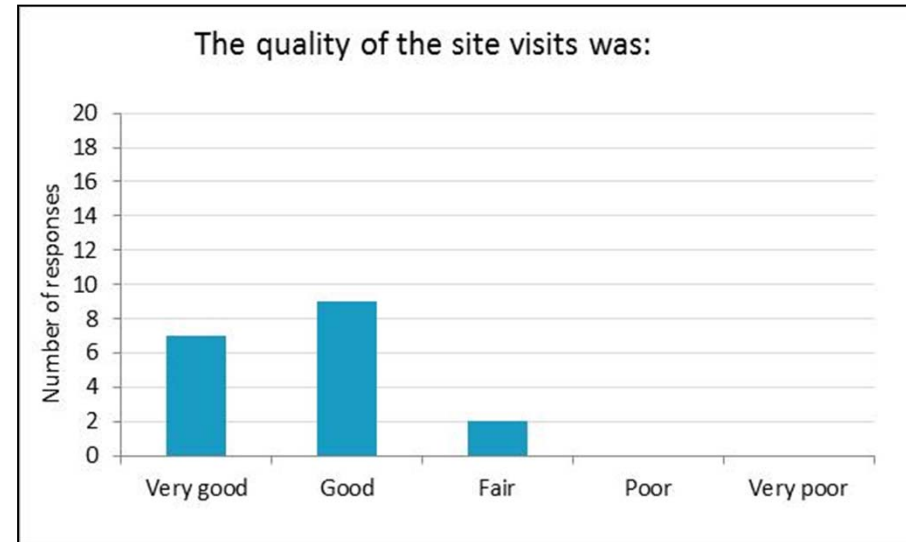

- Feedback was overall positive

Participants' feedback

Participants' feedback

- Fewer respondents participated in the site visits

Comments

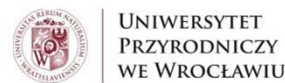

- Which parts of the event were most valuable:
 - Workshops, training sessions, site visits
 - Learning from others, brainstorming
 - Networking and informal meetings
 - Examples, e.g. Northern Gateway and Greater Manchester Natural Capital Plan, and methodologies, e.g. natural capital accounting
 - Food! Vegan food!
-

Comments

- Suggestions for improvement:
 - More investors and funders present
 - More concrete cases and examples, more proven concepts
 - Specify cases used in session descriptions
 - Methods for active networking and facilitation
 - Different venue – difficult to hear
 - Shorter agenda, later start
 - Non-vegetarian food! More coffee and tea!
-

Thank you!
